

**The Institute of Social Development  
Environmental Policy**

The ISD is committed in providing quality service in a manner that ensures a healthy and safety environment to the beneficiaries as well as conducive workplace for its employees by minimizing our potential impact on the environment. The ISD complies with relevant environmental legislation and strives to implement pollution prevention and environmental best practices in all its activities.

ISD's policy is to

- Promote awareness on environmental issues to its employees and beneficiaries by encouraging them to work in an environmentally friendly manner
- Consider environmental concerns and impacts as a cross cutting issue in all its activities and decision making
- Reduce waste and then reuse or recycle them as much as possible
- Minimise energy by using Compact Fluorescent Lights (CFL) and water usage in our office premises in order to conserve and minimise consumption of natural resources particularly resources that are non-renewable
- Purchase and use environmental friendly products
